

DD SuperLight Frontline Hammock

Ultralight version of popular Frontline Hammock

Versatile

Ultralight

Breathable

Bug proof

Knot free system

Pockets

Incorporating the same basic design as our best-selling DD Frontline Hammock, the DD SuperLight Frontline Hammock is made from a lightweight ripstop nylon and has only one main layer. Together with our Whoopie Suspension Kit including DD Hammock - Karabiners, Tree Huggers and Whoopie Slings, this hammock is not only great value but the ultimate expedition hammock for those on the trail.

Specs

SIZE:
2.7m x 1.4m
(comfortable for people up to 6ft 5in and 125kg)

PACKED SIZE:
24cm x 14cm x 6cm

WEIGHT:
620g
(excluding webbing & poles)

Olive green

Features

- **Breathable**, single-layered design made with our DD SuperLight material
- Ultra-fine built-in mesh **mosquito net**: zips closed and it offers protection against all insects (including the Scottish midge!)
- 2 x 60cm foldable lightweight **spreader poles** and 2 x 2m lengths of elastic to suspend the net
- **4 internal pockets** to store small valuables
- **4 tabs** on each corner of the base - to peg out, suspend equipment from or to fit a DD Underblanket
- Pre-fitted with DD **Complete Whoopie Suspension Kit**
- **Stuff sack**

How does it work?

Sleep 100% bug-free with the SuperLight Frontline's insect net zipped up, or simply unzip both sides and roll up to secure out of the way. Alternatively, suspend the hammock with the net on the bottom to lounge out in the sun!

Set-Up Options

Bug free hammock

Completely insect and mosquito free sleeping system

To suspend the mosquito net:

Connect the segments together on both poles, and insert them into the channels on either side of the mosquito net.

Tie off the supplied elastic cord to the central loop on the outward-facing side of the pole channel, and tie off the other to the hammock suspension, tree or other attachment point.

Repeating this process on the other side, unzip the net, and climb in for a bug-free night's sleep.

Mosquito Net rolled up

For easy access to the hammock, you can unzip the mosquito net, before gathering the net together at the top of the poles.

Basic open hammock

If you want to get the bug net completely out of the way, you can simply remove, or omit the poles entirely and flip the hammock over so the net is on the bottom. An ideal set-up for insect-free conditions!

Using it this way you can also use it as a seat during the day.
