

DD Scout Hammock

Ideal for youths and groups

Compact

Breathable

Versatile

Lightweight and compact, the DD Scout hammock is named as such because it's perfect for Scout groups and smaller hammock campers. This is not just for kids though, we recommend that this hammock will be comfortable for anybody up to 6ft / 182cm, and it is built to the same expedition-ready quality you would expect from a DD Hammock.

Pre-fitted with 8m of DD Strong webbing, this hammock is ready to set up straight out of the bag and you (or your children / Scouts) can be relaxing in their hammock in a matter of minutes. Perfect for a comfortable night out by itself, or made weatherproof with the addition of one of our tarps, this hammock strikes a great balance between functionality and great value for campers young and old.
